

Waikato Chapter of Sport Aviation Assoc (SAA) of NZ

*(Dedicated to building, flying, designing, modifying - and talking about - **home-built aircraft**)*

Extra to the Newsletter - November 2025

My mistake: I missed a submission from Andrew Moir and I figured you would all find this interesting too, so I have done an extra page to cover it...

Currently Flying:

Andrew Moir: Furio ZK-FUO, reports: -

The Furio continues to perform well and is undertaking some aerobatic training. This shot from my old aircraft, now owned by Murray Connell, a 777 captain who upgraded to my little Tecnam Sierra ZK-WNR in his retirement.

Side: Andrew passing the Tecnam Sierra taking the pic, whilst being overtaken I expect??? Very sleek...

Cheers, Tony.
